

## C5 Medical Werks Provides Cover Story for 25th Anniversary Publication of Medical Product Manufacturing News

*Ceramic orthopaedic implant manufacturer in the news.*

April 28, 2010 – Denver, Colorado – C5 Medical Werks, a manufacturer of high-quality ceramic components for orthopaedic OEMs was featured in the cover page story of Medical Product Manufacturing News' 25th Anniversary edition which was published in April.

Dr. Steven Hughes, Orthopaedic & Medical Implant Technology Manager at C5 Medical Werks contributed to the story which focused on different types of bearing surfaces used in orthopaedic total hip arthroplasty (THA) and total knee arthroplasty (TKA).

“2010 is a very exciting year for C5 Medical Werks as we develop new materials and technology that will drive the next generation of orthopaedic implant components,” explained Dr. Hughes. Our success is in providing orthopaedic components that are customer specific rather than providing off the shelf ceramic hip balls” Dr. Hughes added.

In a dedicated ceramic implant facility, C5 Medical Werks produces components such as: ceramic hip joint ball heads and liners including
